

Chapter 2: Dashboard & Navigation

The PropMetrik dashboard is your command center. It presents real-time market data, key performance indicators, and quick access to every module in the platform. The interface uses a distinctive terminal-style dark theme with amber accents, designed for professionals who spend extended time analyzing data.

2.1 Main Dashboard Overview

After logging in, you land on the main dashboard. This page provides a comprehensive snapshot of your organization's activity across all modules.

Key Dashboard Sections

The main dashboard is divided into several panels:

Top Ticker Bar A scrolling ticker at the top of the screen displays live market data, including:

- **Ghana Property Index** -- Average property prices and total listed properties with percentage change.
- **Accra Average Price** -- The current average property price in Accra.
- **Neighborhood Spotlights** -- Trending neighborhoods with average prices and directional indicators (up/down).
- **Active Deals** -- Number of deals currently in your pipeline.
- **Pending Valuations** -- Valuations awaiting completion.
- **Cap Rate** -- Current average capitalization rate.

Overview Statistics Below the ticker, a row of summary cards shows:

- Total valuations completed

- Valuations this month
- Active deals in pipeline
- Pipeline value (in GHS)
- Total properties under management
- Team members in your organization

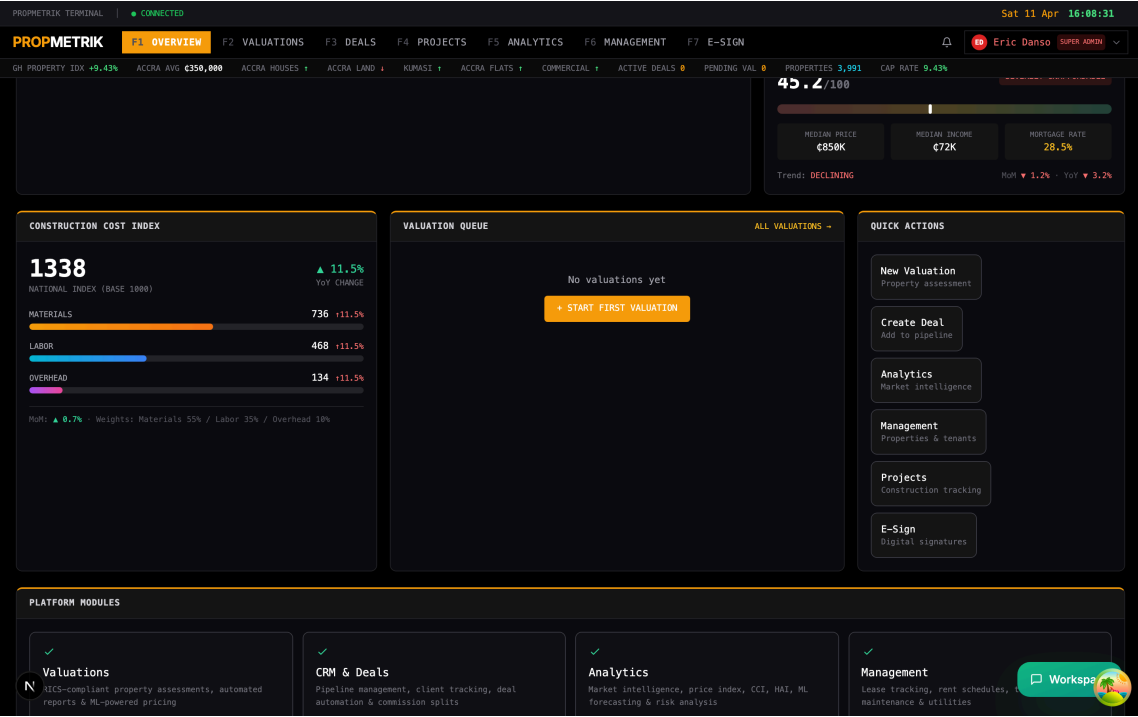

Valuation Queue A panel listing recent valuation requests with their status, priority level, property type, and creation date. Click any item to open the full valuation.

Deal Pipeline A visual representation of your deal pipeline showing the number of deals and total value at each stage (e.g., Lead, Qualified, Proposal, Negotiation, Closed).

Recent Transactions A feed of the most recent property transactions including transaction type, property name, location, value, and date.

2.2 Market Intelligence Panels

Scrolling further down the dashboard reveals deeper market intelligence panels.

Market Indicators

A table showing key metrics for different areas:

- **Area** -- Geographic region or neighborhood
- **Average Price** -- Current average property price in the area
- **Volume** -- Number of transactions recorded
- **Change** -- Percentage change over the reporting period (positive values in green, negative in red)

Construction Cost Index (CCI)

Displays the national Construction Cost Index with its three components:

- **Materials** -- Cost index for building materials with month-over-month and year-over-year changes
- **Labor** -- Cost index for construction labor
- **Overhead** -- Cost index for project overhead

Each component shows its weight in the overall index, current value, and recent trends.

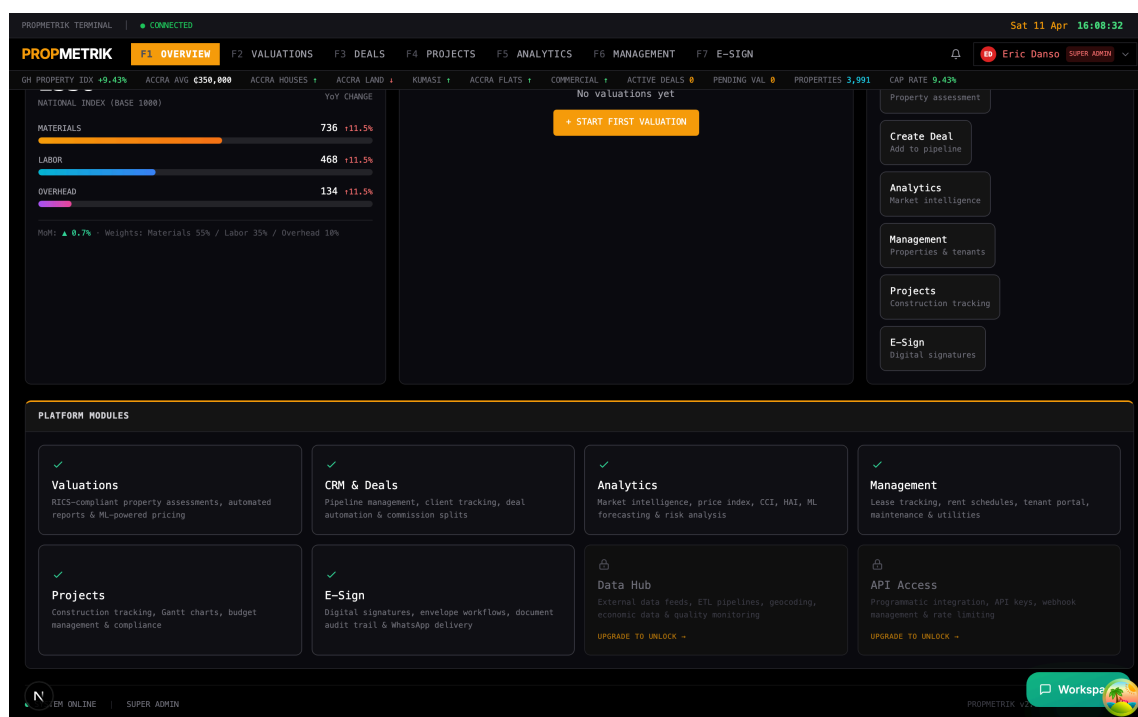

Property Management KPIs

If you have properties under management, this panel shows:

- Average cap rate across your portfolio
- Average monthly rent
- Average annual net operating income (NOI)
- Average gross yield
- Total rental vs. sale properties

2.3 Dashboard Bottom Section

The lower portion of the dashboard contains additional intelligence and action items.

Market Price Index

A breakdown of median and average property prices by region and property type. This data comes from PropMetrik's Data Hub and is updated regularly.

Quick Actions

Shortcut buttons for common tasks:

- Create a new valuation

- Start a new deal
- Add a property
- Create a project
- View reports

2.4 Navigation Sidebar

The left sidebar provides access to all PropMetrik modules. It collapses to icons on smaller screens and expands on hover or click.

Module Navigation

Icon	Module	Description
Dashboard	Home	Return to the main dashboard
Projects	Project Management	Construction project lifecycle management
Properties	Property Management	Portfolio, buildings, units, and leases
Valuations	Valuations	Property valuations and reports
Deals	CRM & Deals	Deal pipeline, contacts, and transactions
E-Sign	E-Signatures	Digital document signing
Calendar	Calendar	Unified calendar for milestones and deadlines
Analytics	Analytics	Market analytics and insights
Admin	Administration	Organization settings and compliance

Tip: Use keyboard shortcuts to navigate quickly between modules. Press **?** on any page to see available shortcuts.

2.5 Your Profile

Access your profile by clicking your avatar or name in the top-right corner of the dashboard.

Profile Settings

From the profile page you can:

1. Update Personal Information

- Edit your full name, phone number, and job title.
- Upload or change your profile photo.

2. Change Password

- Enter your current password and set a new one.
- Password must meet minimum complexity requirements.

3. Notification Preferences

- Choose which notifications you receive (email, in-app, WhatsApp).
- Set notification frequency (immediate, daily digest, weekly summary).

4. Connected Accounts

- View linked identity providers (e.g., Google, Microsoft).
- Manage SSO connections.

5. API Access

- View your API key for programmatic access (available on Developer and Enterprise plans).
- Regenerate your API key if compromised.

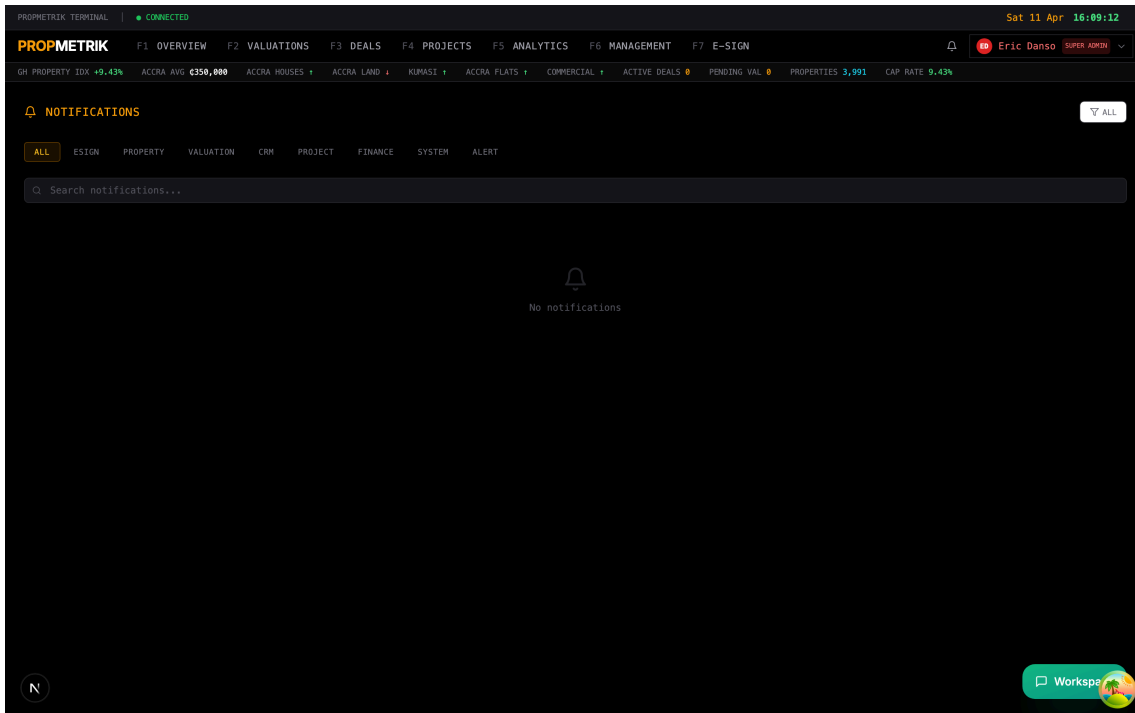

How to Update Your Profile

1. Click your **avatar** in the top-right corner.
2. Select **Profile** from the dropdown menu.

3. Edit the fields you want to update.
4. Click **Save Changes**.

2.6 Notifications

PropMetrik keeps you informed with a real-time notification system.

Notification Types

- **Valuation Updates** -- When a valuation you requested is completed or requires action.
- **Deal Activity** -- When a deal moves to a new pipeline stage or a contact responds.
- **Project Alerts** -- Milestone deadlines, budget overruns, RFI responses, and inspection results.
- **Property Management** -- Lease expirations, maintenance requests, and payment receipts.
- **Team** -- Invitation acceptances, role changes, and mentions.
- **System** -- Platform updates, scheduled maintenance, and security alerts.

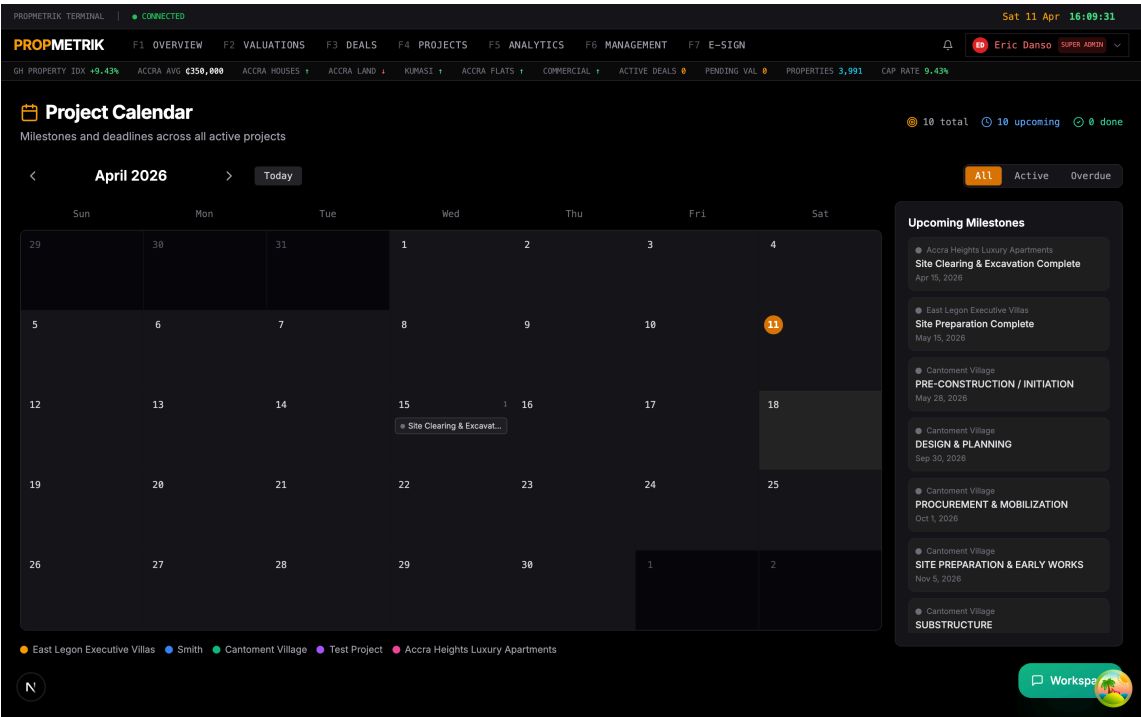

Managing Notifications

1. Click the **bell icon** in the top navigation bar to open the notification panel.
2. Unread notifications appear with a badge count on the bell icon.
3. Click any notification to navigate directly to the relevant item.
4. Use the **Mark All Read** button to clear the unread badge.
5. Click **Settings** within the notification panel to customize which notifications you receive.

Tip: For time-sensitive alerts (e.g., safety incidents on construction sites), enable WhatsApp notifications in your profile settings to receive instant messages.

2.7 Calendar

The unified calendar aggregates events from all modules into a single view.

Calendar Features

Views

- **Month View** -- A traditional grid showing all events for the month. Days with events display colored dots.
- **Week View** -- A detailed view of the current week with time slots.
- **Day View** -- Hour-by-hour breakdown of a single day.

Event Types The calendar pulls events from multiple sources, each color-coded:

Color	Source	Examples
Amber	Project Milestones	Foundation completion, roofing deadline
Blue	Deal Events	Viewing appointments, offer deadlines
Green	Property Management	Lease start/end dates, inspection schedules
Red	Overdue Items	Missed deadlines, overdue payments
Purple	Meetings	Team meetings, stakeholder reviews

Using the Calendar

1. Navigate to **Calendar** from the sidebar.
2. Use the **left/right arrows** to move between months.
3. Click any **date** to see all events for that day in a detail panel.
4. Click an **event** to navigate to the source item (e.g., clicking a milestone opens the project schedule).

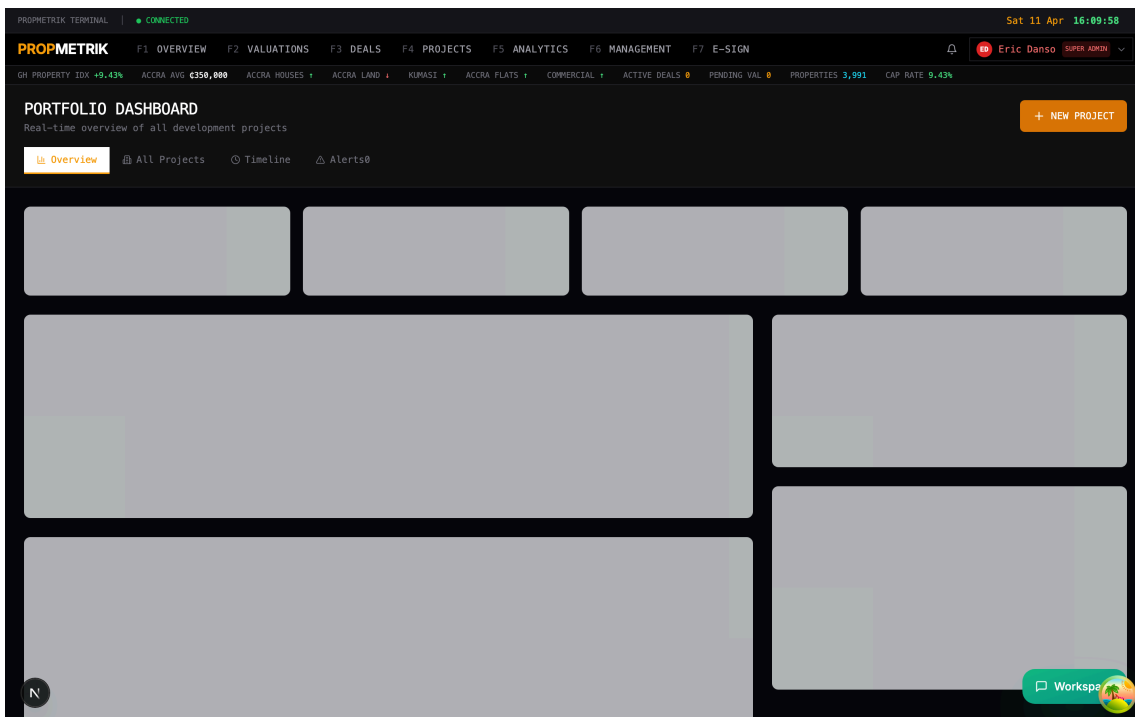

5. Use the **filter** button to show/hide specific event types or projects.

Filtering Events

- Click the **Filter** icon at the top of the calendar.
- Select which **projects** you want to see milestones for.
- Toggle event categories (milestones, deadlines, meetings) on or off.
- The filter persists across sessions until you change it.

2.8 Portfolio Overview

The portfolio view provides a high-level summary of all your real estate assets.

Portfolio Metrics

- **Total Portfolio Value** -- Sum of all property valuations in your portfolio.
- **Properties by Type** -- Breakdown of residential, commercial, mixed-use, and industrial properties.
- **Geographic Distribution** -- Map or list showing where your properties are located across Ghana.
- **Performance Indicators** -- Aggregate yield, occupancy rate, and NOI across the portfolio.

How to Use the Portfolio View

1. Navigate to the **Portfolio** section from the dashboard or sidebar.
2. Review the summary cards at the top for overall metrics.
3. Use the **property list** below to see individual assets with their current valuation, status, and key metrics.
4. Click any property to drill into its detail page.
5. Use **filters** to narrow by property type, location, or status.

Tip: The portfolio view is ideal for investor reports. You can export portfolio summaries as PDF or Excel from the actions menu.

2.9 Dashboard Customization Tips

Personalizing Your Experience

- **Role-based views:** The dashboard automatically adjusts its panels based on your role. Valuers see the valuation queue prominently; project managers see project milestones; property managers see occupancy metrics.
- **Plan-based access:** Some dashboard panels display a lock icon if they require a higher-tier plan. Click the lock to see upgrade options.
- **Refresh data:** The dashboard data refreshes automatically via real-time connections. You can also manually refresh by pressing `Ctrl+R` (or `Cmd+R` on Mac).

Quick Navigation

Action	How
Return to dashboard	Click the PropMetrik logo or "Dashboard" in the sidebar
Open notifications	Click the bell icon
Open profile	Click your avatar
Open calendar	Click "Calendar" in the sidebar
Search	Use the search bar in the top navigation

Summary

Feature	Location
Market ticker	Top of main dashboard
Overview statistics	Dashboard summary cards
Deal pipeline	Dashboard middle section
Market intelligence	Dashboard scroll-down panels
Profile settings	Avatar > Profile
Notifications	Bell icon (top-right)
Calendar	Sidebar > Calendar
Portfolio	Sidebar > Portfolio
